IN presenting our 1930 Contract Price List we have eliminated several of the little used, or unimportant, sorts, devoting our constant efforts to maintain and improve the standard varieties of garden seeds in largest demand, and adding, from time to time, only new strains of proven merit.

To this end we carry on extensive comparative trials and selective breeding, to retain from year to year a high standard of quality, and with each year we are drawing upon the experience of many years in the production of dependable Garden Seeds.

No efforts are spared in preparing our seeds for delivery in a thoroughly merchantable condition.
